

SIMPOLO SPARK

EVEN A GENIUS HAS QUESTIONS!

SIMPOLO SPARK is the world's easiest and fastest virtual platform, that is now in India. This software tool helps you visualize and select the most appropriate tiles for your dream space. This document will take you through on how you can get the best out of SIMPOLO SPARK and seamlessly create an ideal design for your spaces.

SIMPOLO SPARK - FAQs

What is SIMPOLO SPARK and how can it help me?

SIMPOLO SPARK is a breakthrough visualizer that helps you to visualize and select the most appropriate tiles for your dream space before making the final tile or sanitaryware purchase.

Who can use SIMPOLO SPARK?

Anyone with a computer system or a laptop with an internet connection can use SIMPOLO SPARK.

Why do I need SIMPOLO SPARK?

In order to make a conscious selection for your dream space, it is recommended to use SIMPOLO SPARK.

How time consuming is it to use SIMPOLO SPARK?

For a novice user, it would take a day or two to understand the functionality of SIMPOLO SPARK and get used to it. After practicing 3-4 models, anyone can create and receive a virtual render within 15 minutes, which includes the model making process.

How are 'Digital Showroom' and 'Virtual Space Creator' different?

'Digital Showroom' is preloaded with five presets that show the quick preview of the best combinations of Simpolo tiles. The camera angle and props are pre-decided in the 'Digital Showroom' and cannot be changed. Also, you can select and put any tile from Simpolo's tile gallery in any of the five presets.

On the other hand, 'Virtual Space Creator' (VSC) lets you create a space according to your desired dimensions and props including doors and windows. VSC allows you to decide the camera angle from which you want to render the view.

How compatible is SIMPOLO SPARK with different devices?

SIMPOLO SPARK is compatible with Laptops, Desktops and Tablets. It is not recommended to use a mobile phone.

What kind of spaces can I create with SIMPOLO SPARK?

You can create designs for a bathroom, bedroom, living room or any space with walls, doors, windows and props.
